INDEPENDENT DESIGN-SOFTWARE DIRECTORY

Honest notes on the tools designers actually reach for.

We review only what we have tested, and say so plainly. Everything else is listed, clearly marked as not tested.

Reviewed · Non-AI utility

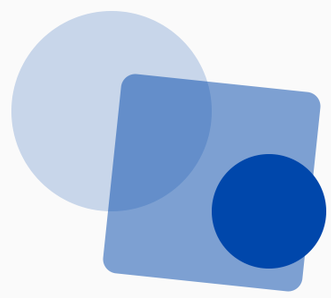

Featured review

Ezgif

A browser-based image and GIF utility. Our review covers three tasks only; the rest of the site is outside its scope.

Optimizer	Reviewed for this task
Resize	Reviewed for this task
Video to GIF	Reviewed for this task

How we label things

Reviewed means we tested the named tasks ourselves. The label never extends beyond those tasks.

Listed—not tested means the tool is in the directory for discovery only. No claims are made about its quality.
